MILLIONS OF GERMANS TO FIGHT FOR REPUBLIC

Call For Demonstration In Berlin Against All Reactionaries

TO GROUND ARMS

People Want An End Of Martial Law; Uphold Present Regime

(French Wireless through Reuter)

Paris, Aug. 30.—According to advices from Berlin, Die Freiheit publishes an appeal signed by leaders of the Majority and Independent Socialist Parties in Berlin calling on all members to join in a demonstration to be held tomorrow (Wednesday) afternoon to protest against the reactionary regime in Germany, and to demand the strengthening of the Republican regime and the abolition of martial law.

The same journal states that a conference held in the Reichstag between the leaders of the Majority and Independent Socialist Parties brought out the fact that both parties were in agreement as to the measures to be taken to fight the reactionary campaign.

Furthermore, the Chancellor has been assured by representatives of the Trade Unions that 1,000,000 Trade Unionist workers and officials will place their services at the disposal of the German Government to defend the Republican regime in Germany.

GAINS GREAT ABUSE

(Reuter's Service)

Berlin, August 30.—The Government's proclamation issued yesterday—declaring that severe measures would be taken against the unscrupulous elements which are seeking to overthrow the Constitution—has been assailed with a torrent of abuse by the reactionary press, while it is welcomed by the Socialist and Democratic newspapers, and is, according to the latter, due to the Government's possession of information that the situation is much worse than it appears on the surface.

Trade union leaders, claiming to represent 11,000,000 workers, have called on the Chancellor, Dr. Wirth, demanding that vigorous measures be taken for the protection of the Republic, including the abolition of martial law in Bavaria, Central Germany and East Prussia, where, they allege, it has been abused for reactionary purposes. The leaders also demand the dismissal of those members of the Reichswehr who have been taking part in anti-Republican demonstrations.

GERMANY HANDS OVER BILLION IN GOLD TO ALLIES

(Reuter's Service)

Berlin, August 30.—The Vice-President of the Reichsbank announces that Germany has already paid the 1,000,000,000 gold marks due to the Allies by August 31, although the payment entailed the despatch to New York of gold to the value of 68,000,000 marks from the Reichsbank reserves.

BUY MANY DOLLARS

New York, August 30.—In anticipation of indemnity payments to Great Britain, France and Belgium amounting to between $65,000,000 and $100,000,000, German agents here have been purchasing dollars in the markets of Holland and Scandinavia for several weeks past. This accounts for the firmness of the rates on those markets.

Balfour Begs For Cut In Tariff To Aid Steelmakers

(Reuter's Service)

Washington, August 30.—Mr. Arthur Balfour, head of a deputation from the Sheffield (Yorkshire) Chamber of Commerce, appeared before the Senate Finance Committee today, when he appealed against prohibitive American tariffs on high grade steel.

Mr. Balfour declared that he did not ask for favoritism, but, he added, "we are anxious to pay our debt to America and this is only possible by trade."

THREE DEAD MANY HURT FROM RIOTS IN BELFAST

Police Aided By Armored Cars Quell Outbreak Of Sectarian Origin

(Reuter's Service)

London, August 30.—Two persons were killed and twelve injured in sectarian rioting at Belfast yesterday. There was a renewal of the disturbance this morning, with brisk revolver firing in the streets. Three persons were taken to hospital.

The police, with the help of armored cars, cleared the streets, and quietness was restored, but considerable excitement prevailed.

Later.—The revolver firing in the streets was renewed this afternoon. Passengers in tram cars sought safety from stray bullets by lying on the floor. One person has been killed and four others injured.

REPLY NOT YET COME

AUSTRIA URGES ALLIES TO BACK UP THEIR ORDER

(Reuter's Service)

London, August 30.—Reports reaching London speak of a number of collisions at Oedenburg between Austrian gendarmerie and Hungarian armed bands, who, the Austrian authorities allege, belong to the Hungarian regular army.

In anticipation of still more serious developments, Austria has forwarded a protest to the Allies, suggesting that the latter see that their orders are respected.

Moscow Concedes Special Rights To 'Co-Op' Bodies

(Reuter's Service)

Reval, August 30.—A recent decree issued at Moscow, making concessions in respect of private ownership of property, authorises agricultural societies with a minimum membership of five persons to transact business, acquire real estate, contract loans, and establish workshops and factories. Such co-operative societies will not be subject to the ordinary regulations regarding compulsory labor, and are to be favored by the authorities.

Liabilities In Humphreys Bankruptcy Case Found To Run To Over Half Million

Hearing In British Supreme Court Reveals Assets Of $2,000—Debtor Testifies He Is Unable To Tell When He Became Insolvent

The first public examination in bankruptcy of Cecil Humphreys trading as Cecil Humphreys and Co. was held yesterday at the British Supreme Court, before the Assistant Judge, Mr. Peter Grain.

There were present Mr. A. L. Dickson, Official Receiver; Mr. P. W. Goldring, representing the debtor. Mr. Wing appearing for Mr. King, Creditor, Mr. Reader Harris for the Bank of China (Creditor), and Mr. Newman for Whitworth and Co., Olivier, Mackenzie and Co. and the firm's late Compradore.

The Official Receiver stated that the debtor carried on business as Cecil Humphreys and Co., a private company here, as general merchants and manufacturers.

Started in May 1920 and carried on until May 5, 1921, when the business was turned over into a limited liability company with two directors, Mr. Humphreys and Mr. Barrett.

On June 30 this year the whole of the assets of the private company were turned over to the limited liability company, but it was extremely difficult to distinguish between the creditors of Cecil Humphreys and Co. and those of the limited company.

The statement showed that so far there was involved liabilities amounting to $525,722.47 and the assets were $2,050, including shares in the Humphreys Soap Works Co.

DEBTOR TESTIFIES

Debtor said he started business in Shanghai in April, 1920. He had intended originally to join Rogers, Brown and Co., but they went into liquidation so he started on his own as merchant. His capital was approximately $150,000. Up to December, 1920, he thought they were doing rather well, but after that the import department showed heavy losses and he could not estimate these as the books were in a terrible mess. That could be a month afterwards, at the end of the Chinese year.

Were you solvent then?—It is impossible for me to say. The books were in a terrible mess.

You had no idea?—No. I had no idea at all.

What happened after that?—On seeing the state of the books I was trying to get somebody to come in the firm so as to come and get the books straight. Mr. Barrett came in and was employed principally as a bookkeeper with a discussion that he was eventually to become a partner. No deed was ever signed.

The Court: Did he receive any salary?—Yes.

As book-keeper?—Yes.

Then what happened?—Directly after that Exchange fell down, the "conditions went to pot." Branches were protesting their bills and everything else.

The Court: What does going to pot include?—The branches were protesting their bills, although the manufacturing side showed encouragement.

The Official Receiver: When did you first realise you were insolvent?—I did not know until the books were in proper shape in April or May this year.

You had no suspicions of it before?—No. I thought the profits on the manufacturing would balance any loss on the import and export.

THE LIMITED COMPANY

In reply to the Official Receiver debtor said that the assets of the private company were transferred on May 5 when the limited company was registered. He had given instructions to his lawyer in February to form a limited company but the actual registration was not done. The documents were made out. There were but two directors, and the shares were allotted to them. To Mr. Barrett for services and to debtor as against all the assets of the private company. He had handed over all that he possessed. All were included in the deed of assignment given to the Hongkong and Shang-

IRISH TRAINMEN STRIKE AGAINST THE 10-HOUR DAY

(Reuter's Service)

London, Aug. 30.—Contrary to the instructions of their Union, the locomotive men on the Great Northern Railway at Belfast struck at midnight against the proposed establishment of a ten-hour day. The trouble threatens to spread to Dublin and Dundalk.

Later:—The strike was due to the refusal of the Great Northern Railway Company to join with other companies in arbitration proceedings in Dublin, but when it was announced this afternoon that the company had decided to accept the findings of the arbitration tribunal, the men who struck in Dublin this morning resumed their duties.

There is still no news of a resumption of work at Belfast where the train service is completely suspended.

Death Of Seaman Due To Accident

James Reilly, an American seaman who was arrested in a semi-conscious state in the Public Garden Monday afternoon and died that night at the Shanghai General Hospital, came to his death from a fractured skull which he suffered by falling in a cell at Central Police Station, according to a verdict given yesterday by a jury before which the inquest was held. The hearing was conducted by U. S. Commissioner F. J. Schuhl acting as Coroner.

Dr. Thomas B. Dunn who conducted an autopsy in the case testified and said he had found two fractures of the skull which had been the cause of death. Dan Shannon, a sailor who had known Reilly, testified that Reilly had been intoxicated habitually in recent weeks. He saw Reilly staggering in the Public Garden on Monday and assisted him when he fell down before he was taken away by the police. Reilly, he said, was subject to fits.

The jury was composed of Messrs. Thomas Knight, Carl Crow, L. A. Rorr, B. N. Padon, G. L. Armstrong and B. A. Hensler.

DR. KOO NOW HEAD OF THE LEAGUE; HAS GREAT TASK

Chinese Minister Given High Honor Of Helping Adjust Europe

ISHII STAYS ON

Japanese Will Preside In Special Session Over Silesia Dispute

(Reuter's Service)

Geneva, August 30.—On assuming the Presidency of the Council of the League of Nations Dr. Wellington Koo congratulated his predecessor, Viscount Ishii, on the happy and brilliant manner in which he had discharged his duties.

Dr. Koo declared that several important problems, affecting international peace had been solved under Viscount Ishii's Presidency, and he, Dr. Koo, hoped, indeed, he felt convinced, that the present special session, which Viscount Ishii would continue to guide, would be crowned with success.

The Spanish and Belgian delegates to the League have deposited their respective countries' ratification of the Court of International Justice.

Geneva, August 30.—The Council of the League of Nations assembled in ordinary session this morning under the presidency of Dr. Wellington Koo. The agenda includes the financial report of the League, which will be presented by the Chinese representative.

CONGRATULATES ISHII

(French Wireless through Reuter)

Paris, August 30.—The Journal des Debats states that Viscount Ishii's report on Upper Silesia has generally created a favorable impression. The report was adopted unanimously in toto by the Council of the League which, as already reported, adjourned yesterday until September 1 to consider the problem.

The members of the Council, the journal says, are obviously determined to lose no time in bringing their task to a conclusion, and it is widely admitted that, at this decisive stage, the work can only be successfully carried through at private meetings, in order that it may be possible to announce full agreement at the next public session of the council. It is unlikely, adds the journal, that the Council will hear representatives of Poland and Germany.

The degree of moral credit which the League of Nations may gain at the present juncture will depend, according to the Journal des Debats, on the impartiality shown by the Council of the League in its decision on the Upper Silesia question.

TAKES OVER COMMAND

Paris, Aug. 30.—General Naulin (? Noulens), who succeeds General Gratier as Commander-in-Chief of the Inter-allied troops in Upper Silesia, has arrived at Oppeln and taken over the command.

General Tsao has drawn the attention of the Government to the valuable services rendered by General Lu to the Chihli forces during the recent military operations in Shensi and urges that General Lu has thereby deserved the gratitude of the Government.

It is believed in Chinese circles that General Tsao's recommendation will be accepted, and that the appointment will be made within the next few days.

Malapuram Garrison Is Relieved, Uprising Found To Be against Non-Moslems

(Reuter's Service)

London, August 30.—It is officially announced that detachments of Leinsters and Special Police have relieved Malapuram and brought the garrison to Calicut.

Particulars of the fight at Fukkatur show that a large body of rebels, armed with sporting rifles, swords and carbines, demonstrated the Moplahs' traditional ferocity and eagerness for death, and fought desperately for five hours before they were beaten off.

A despatch from Reuter's Simla correspondent, received this evening, states that the latest reports of the Moplah risings show that columns from Malapuram, Calicut, and Tirur are converging on Tiruhangadi.

Reports from some districts indicate that the disturbances are slowly subsiding, the correspondent says, and a favorable turn in the situation is expected shortly. The attempts by members of the Congress Party to pacify the Moplahs have apparently failed.

The correspondent adds that local newspapers draw attention to the fact that the rising is directed not against the Government, but against all non-Moslems, in consequence of which Hindus and Christians are organising bands with the object of beating off the rebels.

HOPE TO REFLOAT CORDILLERE WITH SATURDAY'S TIDE

Strenuous Effort Will Be Made To Free Grounded Vessel

Saturday with the full flow of the spring tide great effort will be made to tow the steamer Cordillere off the Tungsha Spit, in the mouth of the Yangtsze, where she ran aground ten days ago.

The Messageries Maritimes liner has rocked with the tide, attaining a heavy list with every low water, but never in a dangerous position since last Wednesday when the list was 28 degrees to starboard. The entire crew was forced to abandon the ship for about six hours, but since then Captain Sangui with eight officers and men have remained aboard. The rest of the crew is now returning in preparation for the big pull. Yesterday morning the Messageries cargo steamer Commandant Mages was dispatched to the scene to assist the tugs. The Cordillere's machinery has been shifting, and it is expected she will be laid up in Shanghai several months for repairs.

The steamer Glaucus, Blue Funnel line, which grounded on Tungsha Spit within two hours after the Cordillere, has been lightered of nearly all her cargo. The local agents stated yesterday they expected the Glaucus to be towed off the bar either last night or tonight. The cargo steamer Knight Templar was sent down yesterday to relieve the Atreus which has been standing by. The Glaucus will probably be able to proceed to Shanghai under her own steam.

CHINA EXPORTS TO U. S. SHOW BIG FALLING OFF

Decrease During Year Ended June 30 Nearly Sixty Percent

Imports to the United States from China fell nearly sixty percent in the year ended June 30, 1921 as compared with the previous twelvemonth, according to statistics issued by the office of the American Commercial Attache here. American exports to China on the other hand showed an increase of nearly 12 percent over the preceding year.

The figures, taken from the monthly summary of foreign commerce of the United States, show exports from China to America for the year 1920-1921 valued at G.$64,470,676, while for 1919-1920 the valuation was G.$152,253,897. Imports to China from the United States for 1920-1921 stand at G.$85,655,296, as against G.$73,816,792 for the year before.

A heavy falling off was noted last year in the export of raw cotton, walnuts, hides and skins, furs, raw silk, tea and wool. Raw cotton fell from G.$6,515,089 in 1919-1920 to G.$3,145,102; furs from G.$9,706,620 to G.$5,779,054; goat skins from G.$23,068,974 to G.$7,185,838; raw silk from G.$81,715,545 to G.$36,644,786.

In China imports from the United States the biggest increases were noted in locomotives, steel rails, steel plates, illuminating oils and cigarettes.

PEACE PLAN IS TOPIC OF CONFERENCE AT YOCHOW

Governors Gather There At Call Of Wu For Discussion

HUNAN IN FOLD

Chao Heng-ti Reported To Be In Accord With Inspector Gen'l

(Staff Wire To The China Press)

Hankow, August 30 (5:50 p.m.).—The Military and Civil Governors of Hupeh have gone to Yochow for a conference with General Wu Pei-fu to discuss peace plans with the insurgents.

Dr. Jacob Gould Schurman, the United States Minister, and his family arrived in Hankow this afternoon. A reception will be held in his honor at the United States Consulate-General tomorrow.

General Hsiao Yao-nan, the Tuchun and Mr. Liu Tse-nen, Civil Governor, have invited the minister and his family as well as consular officials to a banquet to be held at Hsiao's yamen tomorrow. For the first time, foreign ladies have been invited to the function.

(Reuter's Pacific Service)

Hankow, August 31.—It is reported in the press that General Chao Heng-ti and Wu Pei-fu have joined hands, and that the former has issued a proclamation at Changsha, ordering the leaders of the insurgents and the representatives of the Kuomintang to clear out of the city forthwith.

According to information from an authentic source, the Civil and Military Governors of Hunan are proceeding to Yochow for a conference with General Wu Pei-fu.

Peking, August 31.—The diplomatic body yesterday forwarded a note to the Chinese Government regarding the recent disturbances in the Yangtsze Valley, in which it is pointed out that foreign interests have suffered.

The note first of all emphasises the necessity for the Chinese Government to prevent further disturbances of that nature, and goes on to say that if such occur again, the diplomatic body will decide what leaders have, in its opinion, been responsible, and such leaders will be denied the right of taking refuge in foreign countries and foreign concessions in China.

Furthermore, the note intimates that the foreign Powers reserve the right to claim "punitive damages" in the event of similar disturbances.

JAPANESE PROTEST

Peking, August 25.—The Japanese Minister sent a Note to the Waichiaopu yesterday, giving details of the attacks that have recently been made on Japanese steamers flying between Hankow and Changsha and particulars of the damage inflicted, which has been principally suffered by Chinese passengers, and requesting the Central Government to take steps to prevent similar incidents in the future.

A telegram from Hankow reports that the steamer Yunghow while being escorted by the British gunboat Gnat, was fired on at a point about fifty miles from Hankow.

SZECHUAN ADVANCING

Peking, August 25.—The latest reports from Ichang say that 2,000 Szechuenese soldiers have arrived at Kweichow (Hupeh), thirty miles above Ichang, and that other Szechuen forces are on their way downstream from Chungking.

PLEADS FOR CHANGSHA

Hankow, Aug. 30.—Mr. Hsiung Hsi-ling, the ex-Premier, has petitioned General Wu Pei-fu not to take Changsha, but to come to terms with General Chao Heng-ti without pressing the latter to recognise the Peking Government. Negotiations in the matter are proceeding.

GUNBOAT IS ON ROCKS

Ichang, August 25.—As reported by telegram on the 13th inst., the French gunboat Doudart de Lagree, which left here to investigate into the firing on the French steamer Kiangking, proceeding to Chungking, ran badly on to the rocks at the Hsintan. For a time it was greatly feared that the gunboat would become a total loss, but she has not broken up, and has been patched up to such an extent that the Commander thinks that if the river rises another five feet he

should be able to bring her down to Ichang again. Junks have been kept alongside, and presumably the heavy armament has been placed on board these, so as to give the gunboat a chance to live again. She has been very badly ripped all along one side from the bow right to amidships.

When the Kiangking was fired on at Patung, besides those who were killed and wounded, the captain had a very narrow escape, as a bullet scratched the side of his neck.

The Kiangking was fired on by Northern soldiers, but they have now left that place, and there are no Northern or Hupeh troops further west in the Province than Ichang. Now the Szechuen soldiers are taking a hand at the same game, and the Robert Dollar and Loongmow, which left here on 21st inst. were both fired at on the way up but no casualties have been reported.

Last time the Robert Dollar arrived here from Chungking, an attempt was made by an armed guard to board her, presumably to search for some person. But the captain objected to an armed party, and told the officer in charge that the men might come on board, but without their arms. They persisted in making attempts to board the steamer, when the captain megaphoned to the U.S.S. Elcano, lying not far off, and asked for a guard for his ship. This was speedily forthcoming, and the Chinese soldiers withdrew.

There is a big force of Szechuenese soldiers on the way here, and the inhabitants of this town are living in a state of tense excitement.

The whole of the western and south-western parts of the Province have been evacuated, and left to the Szechuenese. They hold Patung and Kweichow, and the local officials of these towns have run away.

General Chao Yung-hwa who was appointed commander-in-chief for Shinan about three months ago, and proceeded there with about 3,000 troops, has now withdrawn his whole force from that place and has arrived here. He was to be seen today riding through the streets with a large bodyguard.

CHEN SPRINGS SURPRISE

Canton, August 26.—The political leaders in Kwangtung were greatly surprised the other day when General Chen Chiungming, the Civil Governor and Commander-in-Chief of this province, replied favorably to the proposal of General Lu Yung-hsiang of Chekiang for the convention of representatives from the provinces of China for the adoption of a national and a provincial constitution for the government of China, as a means to solve the present political situation. The Kuomintang, of which Dr. Sun Yat-sen is the national leader here, maintains that the unification of China can only be worked out in accordance with his plan, and that the attempt of General Lu Yung-hsiang and others to solve the problem in any other way is contrary to the policy of Canton.

As General Chen is still in Kwangsi, his exact stand on the question cannot be fully understood. The provinces which will support General Lu's proposal through the Tuchun's favorable reply are believed to be Chekiang, Fukien, Kwangsi, Yunnan, Kweichow, Hunan, Hupeh and Szechuen. The local leaders in Canton will probably oppose the proposal.

APPROVES LU'S PLAN

(Kuo Wen News Agency)

This agency has received a telegram from General Chen Chiungming in which he approves of General Lu Yung-hsiang's scheme for self-government as a preliminary step for the unity of the country and the framing of a national constitution. General Chen, in his telegram, states: "Since the establishment of the republic ten years ago not a day has passed when China has had real peace. Secretly a small band of people are selling their country, while outwardly, the militarists of the country have all the power in their hands, and do as they please. This will go on until the country has fallen to pieces unless something is done to put an end to it at once.

"Why is this?" asks General Chen. "It is because the country's laws have not been framed and the country is not established on a strong foundation. Rotten officials do illegal acts at will with none to interfere. It is easy enough to say 'unity' but such a term is empty at the present time.

"When I read General Lu Yung-hsiang's letter calling for (1) a provincial constitution, drawn up by the people of each province when the people will be able to govern themselves; and (2) a national constitution and for unity afterwards, I considered it a real plan for national salvation and one which I greatly approve. General Lu has gained my admiration. General Lu Tu, of Kweichow, has issued a similar telegram by which I know that these virtuous men, though separated by many miles, have similar views and plans.

"It has been proposed that a National Conference be called in Shanghai to discuss various important legal questions which will later be placed before the people of the whole country for approval. This is an excellent idea and is real democracy. It is a guarantee of the everlasting foundation of the republic of China.

"Though I am not a learned man, I dare not oppose this excellent suggestion of General Lu's, and in closing I would urge General Lu to send out telegrams to the provinces immediately calling for a conference in Shanghai, at a date to be fixed later, at which representatives of the people will be present."

It is reported that General Lu's scheme has received the approval of Kwangtung, Kwangsi, Kweichow, Fukien, Szechuen, Hunan, Yunnan and Chekiang.

WIRES SOUTH FOR AID

(Reuter's Pacific Service)

Canton, August 26.—General Chang Tso-ping, "Commander-in-Chief of the People's Forces" in Hupeh, has repeatedly wired to Canton for aid in his conflict with General Wu Pei-fu for the self-government of his province. Canton now has agents in Hupeh to work against the Chihli party and the Chinputang under Mr. Hsiung Hsi-ling and General Li Yung-hung, but so far only General Li Lieh-chun and his army have been formally instructed to march towards Hupeh, although preparation is being made in Canton for an expedition against the North, with the avowed object of not only "saving Hupeh from militarism," but also "relieving the whole of China from the maladministration of Peking."

The Kwangsi campaign has taxed Cantonese man-power and finance very heavily and official quarters admit that the much-talked-of Northern expedition will be unable to proceed as early as first planned.

The cost of the old Parliament in Canton is something like $76,000 a month to the Cantonese.

Gold Output Of Siberia Has Big Increase Coming

(Dalta News Agency)

Chita, August 12 (by mail).—A report on gold-mining in the Russian Far East (Eastern Siberia) for the period of the last thirty years has been forwarded to the Government of the Far Eastern Republic by the Mining Department.

According to this report the output of gold in Transbaikalia reached its highest level in 1907. From the year of 1882 until 1900 the yearly output of gold was 700 poods. The greatest output of gold occurs in the Amur and Transbaikal districts. It is further pointed out in the report that the output of gold may be considerably increased since vast areas of gold bearing land have not yet been properly investigated.

PEKING TO GIVE DELEGATION BIG MONETARY HELP

(China Press Correspondence)

Peking, August 25.—Preparations for China's participation in the Pacific Conference are making rapid headway. The Government already has appropriated $800,000 to cover the first expenses of the Chinese Delegation. Sufficient passages for the Delegation have been reserved on steamers sailing from Shanghai in September and October. A list of officials who are likely to be appointed to the Delegation has been drawn up. The work of preparing China's case for the Conference is under way.

The appointment of China's Chief Delegate and his associates has, however, been held up thus far owing to party intrigues and it is said to be the Government's policy to postpone the announcement of these appointments until the last minute so as to avoid the prolonged political tempest that is likely to be stirred up by disappointed candidates for these posts.

Dr. W. W. Yen, China's Foreign Minister, has been—and still is—looked upon as the most likely candidate for the post of Chief Delegate, but recently other candidates have entered the field, among them being Yeh Kung-cho, ex-Minister of Communications and a strong leader of the Old Chiaotung Clique, and a candidate put forward, but not as yet named by Liang Chi-chiao's party.

Both of these candidates are bringing strong personal and political pressure to bear in order to obtain the Chief Delegateship, and your correspondent is informed that the Government is having some difficulty in withstanding this pressure. It is believed here that the Government still considers Dr. Yen the most logical and suitable man for the post and that he will probably get the appointment in the end. Party politics, however, are regarded here as a game that the Old Chiaotung Clique can play more subtly than any one else; and Yeh Kung-cho is a clever and energetic worker.

In well informed foreign circles here disappointment is expressed at the fact that Chinese politicians are playing the same old game of subordinating the country's national and international interests to their purely political intrigues and ambitions. These persons feel that the Government should select its delegation to Washington impartially and get the best men available, regardless of party. They feel further that every party in China should support this delegation, so that China can go before the Conference with a united front.

Make Big Opium Haul On Empress Of Russia

Three hundred pounds of opium, valued at Yen 60,000 was seized by police and Customs officials on board the steamer Empress of Russia when the ship reached Kobe August 24, according to a despatch in the Japanese Advertiser. A Chinese passenger from Hongkong who had tried to smuggle the drug into Japan made his escape. This man, it is alleged, originally intended to land the contraband in Shanghai but was prevented from doing so by the stormy weather prevailing when the ship was at Woosung.

The Harbin Stock Exchange has the assurance of the Government of the Far Eastern Republic that it will facilitate the shipping of supplies to Russia in every possible way.

TRADE CHANNELS CHANGE

(Rosta News Agency)

Moscow, August 12.—As a result of the Russo-German commercial pact the trade between Germany and Soviet Russia has greatly increased and is nearing the figure of pre-war times.

"It is interesting to note," writes the Moscow Izvestia, "that 47 percent of our export, even before the war, was carried through Germany, and only 31 percent of our export trade went to England, France and Italy. At the same time the import from Germany to Russia amounted to 44 percent of the total Russian import while only 20 percent of it came from the three Allied countries."

Liabilities In Humphreys Bankruptcy Case Found To Run To Over Half Million

(Continued from Page 1)

hai Bank. These were the assets in the possession of the company on June 30.

The principal creditors were the Hongkong and Shanghai Bank, the International and the Bank of China.

At the time his overdraft at the International was between Tls. 190,000 and Tls. 200,000 and in the Bank of China he owed Tls. 46,000. That was what was owing on December 30, 1920.

The securities the Hongkong and Shanghai Bank held were approximately of the value of Tls. 120,000 to Tls. 130,000, and these they still held.

BUYS CARPET FACTORY

In January of this year he purchased a carpet factory and in order to do this, he negotiated a loan from the Bank of China for Tls. 46,000. He agreed to give them a charge on the factory, but he had not done so.

Did you give them any deeds?—No. That charge was still in existence.

You have never paid them?—No.

Who did you approach next?—The Hongkong and Shanghai Bank so as to give me banking facilities in order to take over my liabilities at the International Bank.

The Court: What did you give to the Bank of China in the way of security?—Nothing.

Just a promise to pay?—Yes.

No formal document?—No.

The Official Receiver was then informed that the Hongkong and Shanghai Bank did give the debtor facilities and the security was the consolidation of the debenture bond. The carpet factory was in the account. He did not inform them that there was already a charge on the factory to the Bank of China. He told the bank of his serious losses in the import department and he had found that a serious error had been made.

The Court: Why didn't you tell them that there was charge on the carpet factory?—I thought I could pay it all once the Hongkong and Shanghai Bank had taken over all my liabilities.

The Official Receiver: But you gave to the Hongkong and Shanghai Bank the deeds of the carpet factory?—Yes.

At the time of the assignment to the limited company on June 20, did you know you were insolvent?—Yes, I knew I was in a pretty bad shape. I was in a pretty bad shape as I was pressed on all sides. I had grave doubts as to my solvency.

PERSONAL EXPENSES

The Omcial Receiver learned that the debtor estimated his personal expenses, &c., since April were between $7,000 and $8,000. The only bills paid had been those contingencies, the illness of his wife, and her passage.

Mr. Reader Harris asked if it were true that when the accounts were made up for the 14 months during which period the firm had been running, the actual loss was Tls. 600,000, and to June 30 the liabilities exceeded the assets by over half a million Taels.

The reply was in the affirmative.

You still say you did not know you were 'nsolvent?—Until I learned from my book-keepers.

"REALLY, MR. HUMPHREYS"

And the actual loss to the extent of over half a million. Really, as a business man, Mr. Humphreys, didn't you know that you were carrying on business, yourself, and that you were suffering loss at that time?—No, until the auditors stated things were in a hopeless mess.

You were the owner?—Yes.

You were carrying on the business and you were drawing Tls. 1,200 to Tls. 1,500 a month out of it. Surely you know you were insolvent? The first intimation I had was when Mr. Barrett came to me in March with the exchange contracts we had made.

Until then you did not know?—No.

At the time you arranged a loan in October with the International Bank you had no idea of your financial position?—No.

When you had the loan from the Bank of China?—Yes.

In January?—Business was coming along all right and I did not realise the serious loss of my import department.

You had no idea of your financial position?—After that I did not know the serious consequences.

You did not know it then?—No.

You know it now?—Yes.

THE BANK OF CHINA

On January 4 you had an interview with Mr. Sung, of the Bank of China?—Yes.

On January 8, you drew a cheque on the Bank of China for Tls. 45,000?—Yes.

Which the Bank of China honored by relying on that letter of yours, dated January 4?—Yes.

And the money was employed by you in the purchase of a carpet factory?—Yes.

Mr. Sung was trusting you?—Yes.

On January 22 you sent a letter to the Hongkong and Shanghai Bank in which you stated that the only liabilities you had were those of the International Bank, for Tls. 135,000?—I had discussed the matter over with Mr. Sung, and the Hongkong and Shanghai Bank were to take over my liabilities. Mr. Sung declined to take them over.

You did not show the liabilities of the International Bank and the Bank of China?—No, but I discussed them with them.

About the same time you gave the securities?—Yes.

But you gave the Bank of China the same list of securities?—That related to a feathers deal at Wuhu. I was negotiating some bills with Mr. Sung for $14,000 gold. The original debt was Taels 46,000.

You did not say anything to the Hongkong and Shanghai Bank about the debt to the Bank of China?—No.

You have drawn from the Hongkong and Shanghai Bank about Tls. 400,000?—Yes.

Why did you not stick to that one bank in accordance with the original agreement?—The loss was coming in, coming in and I simply overlooked the thing eventually and thought the financial assistance would enable me to pay all off.

You have paid some of the money off?—Yes.

To the International Bank?—Yes. I would have paid the Bank of China had we continued.

Now on January 22 you wrote to the Hongkong and Shanghai Bank stating that you wanted Tls. 350,000, and yet in your second letter to them you state on the 28th that you only wanted Tls. 20,000 to Tls. 30,000? That was to meet small liabilities.

Debtor added that he had been kept out of the office for some weeks so he did not know how things stood. Up to June 29 he had Tls. 400,000, from the Hongkong and Shanghai Bank and no more had been advanced.

You say you did not get anything out of it when the limited company was formed?—None.

What advantage did your creditors get out of it?

I cannot think of any advantages. I can think of the disadvantages. They were your creditors and you parted with all of your assets—Yes.

And the only object of it was to give a better security to the Hongkong and Shanghai Bank?—Yes. That's right.

The Hongkong and Shanghai Bank knew that you had other creditors?—Yes.

His Lordship: Why did you do it?—Because of pressure from the Bank.

Pressure of what?—Pressure to form a limited liability company.

Why?—They wanted to consolidate the debentures.

And you say you got nothing out of it?—Yes.

But you did, you got facilities at the bank?—I mean I did not gain by it personally.

By Mr. Reader Harris:—You got no further facilities, but they gave up pressing you for the moment?—Yes.

You and Barrett were the directors?—Yes.

Who signed checks?—I did.

And he?—Signed the compradore orders.

THE BRASS PLATE

Mr. Wing elicited the fact that the new company was filed on May 5, and the business went on just the same as before. There was nothing at all to suggest to the outside world that there had been any change except that the brass plate was altered, the letter heads were changed, and the advertisements appeared in the paper. The banks must have known of the change. When he engaged the compradore in June, he (debtor) entered into an agreement with him personally. There was nothing about a limited company in the agreement.

Mr. Newman, who represented four creditors, asked debtor if the new company was formed purely at the suggestion of the Hongkong and Shanghai Bank.

Debtor: Yes, they suggested it.

Did you disclose your position?—I said I did not know my position.

PREFERENTIAL SECURITY

I understand the object of forming it was to give them a preferential security?—Yes, give them a lien on the assets.

Did you ever suggest to them that you did not like to do that?—No.

You were quite ready to fall in with their suggestion?—I said preferential security, I was under pressure, and I did it.

THE OTHER CREDITORS

Now, your indebtedness to Mackenzie & Co., Whitworth & Co., and Olivier & Co., I think you ordered goods from them which were to be taken up by you on delivery in Shanghai. At the time you placed these orders, had you any accepted buyers or completed contracts with buyers, to take over these goods?—What particular goods do you refer to?

What goods? Piece goods (sewing cotton)?—No.

Goods from Mackenzie & Co.?—That is a different thing. They were in exports.

Had you the necessary capital at the time to pay for the goods?—I did not know my position. I thought I was all right.

Was it anything but a gamble? You knew the goods would not come out here for months and you had no contracts made?—A man in business anticipates he will make a profit.

Is it usual for anybody to import and cannot finance dealers themselves?—There are lots of them.

Do you think it is sound business?—No, I don't think it is sound.

It is nothing more than a gamble.

You cannot take up the goods and you make a gamble of it by ordering goods and waiting for a rise in price?—Big houses here do it. Do you suggest it is a gamble?

* * *

His Lordship: Answer the question. You are not to ask them.

Debtor: No, I don't consider it is a gamble.

Did you disclose to the firms to whom you gave these orders the fact that you were importing on your own account?—Yes.

Did you disclose to them that you had no contracts with dealers?—I do not think they would have asked that question.

The Official Receiver was told that the reason why the debtor gave those debentures to the Hongkong and Shanghai Bank was because they wanted to consolidate their securities. They said he had to form a limited liability company so that he could issue debentures. That was what he meant by pressure. The compradore, Mr. R. T. King, knew there was a limited liability company.

BAD JUDGMENT

Debtor, later on, at the close of his examination, stated that he thought he had exercised misplaced and bad judgment, there was the fall in exchange, the slump in goods, and general bad trade conditions. Also he had to carry on the whole of the business on his own shoulders and he had gone deeply into unfavorable time.

His Lordship: You seem to have gone very deeply.

Mr. E. G. Barrett remarked that he had not been engaged as a bookkeeper at a salary.

Debtor apologised and said that he meant he (Mr. Barrett) had charge of the books and had been made an allowance. He had not drawn a salary.

Mr. Goldring, in behalf of the debtor, asked that the public examination be closed, as his client had to go somewhere for employment.

After a brief discussion, His Lordship ruled that the examination be adjourned sine die, Mr. Reader Harris having intimated that a motion would be made in regard to the assignment of the assets.

TWO ARE APPOINTED

(Reuter's Pacific Service)

WEEKLY GAZETTE NEXT

(Reuter's Pacific Service)

Peking, August 25.—It is reported that the Government intends to publish a weekly Official Gazette in addition to the present daily publication. It has not yet been announced when the first issue will appear.

WHO COULD BE PROUD OF A R'Y. RUN LIKE THIS?

(Staff Correspondence)

Peking, August 24.—Chinese could once be proud of the Peking-Suiyuan Railway. It was purely Chinese owned, Chinese constructed, and Chinese operated, without a tinge of foreign influence. Now, however, five million dollars of shares of the railway lie in a Japanese bank as security for a loan, a goodly portion of which went to Chang Tso-lin's Mongolian expeditionary expenses. The Chinese have dishonored the one monument to their engineering skill.

This railway taps China's rich and undeveloped Northwest. It is the gateway of hope to the crowded millions of China's provinces. It should make available to them the resources and land of the vast Northwest country. But to be useful the railway must be an encouragement to trade. The incubus of officialdom never fails to strangle budding trade.

There are thirteen likin stations on the upper Yellow River between Kansu and the Suiyuan railhead. Now the officials have, in face of the opposition of merchants all along the line who are making good their threat to "starve Peking out" determined to continue this abominable system along down the railway.

The capital gets the bulk of its produce and grain supplies from along this line. Dealers are refusing to ship, and foodstuffs in Peking are selling at famine prices. But the bribes of the likin collectors are too tempting for the Government to resist.

MUNICIPAL STAFF CHANGES

The following changes in the Municipal staff are reported in the Municipal Gazette, as taken from the order books for the week ended August 27:

Fire Brigade.—Mr. G. B. Thompson, Station Officer, is invalided with effect from August 31.

Public Works Department.—Mr. A. C. Dobbie is appointed Assistant District Inspector from September 1.

Secretariat.—Mr. J. Snodgrass is appointed temporarily as Assistant from August 26.

Thirty-Eight Cases Of Cholera Verified By Health Offices

Four Are Foreigners; Yesterday's Rain Expected To Be Beneficial

Cholera cases in the International Settlement verified bacteriologically in the laboratory of the Public Health department numbered four foreigners and thirty-four Chinese, for the week ending August 28.

In making this report Dr. C. Noel Davis, acting Commissioner of Public Health, declared that 90 percent of the cases were due to obvious breaches of public health rules. The Chinese eat the raw, sliced melons which are exposed to flies in the street, and those who are susceptible get cholera.

Dr. Davis believes the number of cases is not out of proportion to the inhabitants of the Settlement, which number about 600,000 Chinese, 20,000 foreigners. The situation is well in hand, and the cases are isolated at the hospitals. The heavy rain yesterday washed the streets, and removed much of the accumulated matter upon which the flies feed. There should be a decrease in the number of cases.

ENVOY TO MEXICO

(Reuter's Pacific Service)

Peking, August 25.—Mr. Wang Chi-tseng has been appointed Special Envoy to convey China's congratulations to Mexico on the occasion of the centenary of the Mexican Republic, the official celebrations of which will last from September 10 to September 30.

CASTORIA

for Infants and Children.

The Effects of Opiates.

THAT INFANTS are peculiarly susceptible to opium and its various preparations, all of which are narcotic, is well known. Even in the smallest doses, if continued, these opiates cause changes in the functions and growth of the cells, which are likely to become permanent, causing imbecility, mental perversion, a craving for alcohol or narcotics in later life. Nervous diseases, such as intractable nervous dyspepsia and lack of staying power, are a result of dosing with opiates or narcotics to keep children quiet in their infancy. The rule among physicians is that children should never receive opiates in the smallest doses for more than a day at a time, and only then if unavoidable.

The administration of Anodynes, Drops, Cordials, Soothing Syrups and other narcotics to children by any but a physician cannot be too strongly decried, and the druggist should not be a party to it. Children who are ill need the attention of a physician, and it is nothing less than a crime to dose them wilfully with narcotics. Castoria contains no narcotics if it bears the signature of Chas. H. Fletcher.

The signature of Chas. H. Fletcher guarantees genuine Castoria

Physicians Recommend Castoria.

"Your preparation known as Castoria I have used for years in children's complaints and I have found nothing better."
JOHN J. LEFFA, M. D., Cleveland, Ohio.

"I have prescribed your Castoria in many cases and have always found it an efficient and speedy remedy."
A. F. PEELER, M. D., St. Louis, Mo.

"For several years I recommended your Castoria and shall always continue to do so, as it has invariably produced beneficial results."
EDWIN F. PARDEE, M. D., New York City.

"I have used your Castoria in my own household with good results, and have advised several patients to use it for its mild, harmless effect and freedom from harm."
EDWARD PARKER, M. D., Brooklyn, N. Y.

"Your Castoria is a meritorious household remedy. It is purely vegetable and acts as a mild cathartic. Above all, it does no harm, which is more than can be said of the great majority of children's remedies."
VICTOR H. COFFMAN, M. D., Omaha, Neb.

"Your Castoria holds the esteem of the medical profession in a manner held by no other proprietary preparation. It is a pure and reliable medicine for infants and children. In fact it is the universal household remedy for infantile ailments."

WOMEN WORKERS GIVEN HANDBOOK

(China Press Correspondence)

Tsingtao, August 26.—There are several Baptist organisations in China, and women's work for women and girls plays no small part in their plans. Two ladies from Shantung, the Northern China Mission of the Southern Baptist Convention, are the committee to arrange monthly programs for meetings of Women's Missionary Societies for 1922. Since many of these societies have very little to draw on for their talks, studies and discussion, the committee prepares a book with rather full material. This handbook is a boon to the women in remote and scattered communities.

Miss Pearl Caldwell, of Mississippi, and Miss Bonnie Jean Ray, of Georgia, brought their work to the Mandarin Editorial Department of the China Baptist Publication Society, in Tsingtao, for final inspection, and to be forwarded to the Publication Society's main office in Canton. The Baptist women of China have shown wisdom in putting their book into Pai Hwa, or Easy Mandarin—another straw that shows how the language winds are blowing.

WILL HAMPER RELIEF

(Reuter's Service)

London, August 30.—On the ground that the majority of the members of the committee are "counter - revolutionaries," the Soviet Government have dissolved the Voluntary Relief Committee. This step is calculated seriously to hamper the relief measures at the present critical juncture, as is shown by a Moscow wireless message, appealing to "those not wishing to sacrifice the interest of the starving population to political consideration," to carry on relief on the basis of independent initiative.

Dozen Warships Of Japan Gayly Clad

(China Press Correspondence)

Tsingtao, August 25.—The Japanese fleet of more than a dozen vessels of large and small types is visiting Tsingtao. Judging from the bunting displayed from floating flags, one would conclude that we are having several days holiday. Marines are [illegible]; the silk dealers are having a run on their stocks, and other tradesmen are trying to reap their share of the spending money of the boys on shore leave [illegible] both Chinese and Japanese are conveyed to and from the ships, and doubtless the latter are duly impressed with the power and majesty of their fighting ships. It is hard to say what the Chinese think for their public is childlike and bland."

Statistical Secy. Post Is Founded

(China Press Correspondence)

Tsingtao, August 24.—The American Southern Baptist Mission working in Shantung and other provinces have just added to their working organisation the office of Permanent Statistical Secretary.

Rev. Wm. H. Sears, of Pingtu, Shantung, is soon rounding out thirty years of continuous service in one station. He is a graduate of William Jewell College, Mo., and the Southern Baptist Theological Seminary, Louisville. Mr. Sears is an expert at figures, has been in charge of an extensive work, and has had wide experience, so that it is natural that the Foreign Mission Board and the North China Mission have been pleased to honor him by electing him to this office. His elevation to this post should be made note of by the many organisations that have such an insatiable thirst for statistics. Mr. Sears is building a summer home at Iltis Huk here.

LABORERS NEEDED

The Department of Public Works is still being handicapped by the insufficient supply of labor, according to the monthly report of the Deputy commissioner, and work could be found at present for about 1,000 additional unskilled men. The change in basis of payment from copper to small silver, in order to offset the depreciation in the former form of currency, has resulted in a slight increase in the number of laborers employed.

Special Grant Denied Shantung Road Hospital

An appeal for a special donation or contribution towards the support of the Shantung Road Hospital, over and separate from the annual grant of Tls. 5,000 made by the Municipal Council has been denied by the council, according to correspondence published today in the Municipal Gazette.

The request for additional support was made on behalf of the hospital by Mr. J. H. Teesdale, chairman of the Chinese Hospital Committee. The grounds for the donation was given as the increased cost of maintenance, the increase in the amount of work done by the hospital for the municipality and the insufficiency of the annual grant to meet expenses.

In refusing the request the council explained that the question was closely connected with the matter of other grants to other public institutions, which from time to time require the council's careful consideration. The council however offered to give special consideration to any proposals Mr. Teesdale might offer to relieve the amount of work and expense attaching to services rendered Chinese employes of the council. It was also suggested that a general appeal be made to the Chinese public for subscriptions, through the medium of the Chinese Chamber of Commerce.

INJUDICIOUS EATING

A Common Failing

Many people have themselves to blame for the fact that they are victims of indigestion, for the trouble is usually brought on either through over-eating, an unsuitable diet, or faulty mastication.

When the ailment becomes chronic victims sometimes fly to pre-digested foods, or purgatives. Though such things may bring temporary relief, they do not, and cannot, cure.

To eliminate indigestion we much get at the cause. Like all other organs of the body, the stomach calls upon the blood for nourishment, and if the blood is poor and thin, it calls in vain. Indigestion soon results. Build up the system, maintain a supply of pure rich blood, and you get to the root of the trouble.

That is why Dr. Williams' pink pills have proved successful in so many cases of indigestion and stomach trouble. They combat the poisons in the blood, purify and enrich it, and so enable it to restore the digestive organs to health and strength.

Just one example of the beneficial result of Dr. Williams' pink pills is here quoted. Mrs. Alice Norrie, of 5, St. James's Place, Greenwich, England, recently said:—

"In November, 1920, I was very run down. For a long time I had been under the care of a doctor, but not being satisfied with his treatment, I sought other medical advice and this doctor gave me to understand I was suffering from acute indigestion and palpitation of the heart. I had twelve bottles of medicine, but none of it did me the slightest good. I was awfully depressed. I could not eat at all, and was on milk diet.

"Then, one day I read in a newspaper about Dr. Williams' pink pills. I obtained a bottle of the pills, and after taking them for a little while the pains I had been subject to were not so violent. I found I could eat food that I dare not touch before for fear of indigestion. I continued with the pills, and every day saw an improvement. Soon I was able to eat practically anything I fancied. I am now feeling fine, and enjoy life. I am convinced it is Dr. Williams' pink pills, and them alone, which have done me so much good."

You, too, can improve your digestion by beginning Dr. Williams' pink pills now. Any dealer can supply, or direct from Dr. Williams' Medicine Co., 96 Szechuen Road, Shanghai at $1.50 the bottle, $8 for six bottles, post free.

A free book "What to Eat," that gives just the information you want regarding your diet, will be sent in response to a postcard request. Write for it now.

AMERICAN OARSMEN URGED TO BEGIN TRAINING NOW FOR SPRING HENLI RACES

Last Spring's Failure In 8's Attributed To Lack Of Early Training

American oarsmen in Shanghai intend to make a clean sweep of next spring's regatta at Henli. They will not be satisfied with winning the pairs and the fours as they did at the last meet: they intend to go after the big shell race—the eights, and, if all goes well, they will have shells entered in every one of the nine events on the card.

With the appearance on the river during the past few days of individuals, pairs and fours of other nationalities, particularly English and Scotch, American oarsmen are beginning to ask the question "When will the Americans begin their training?"

Training, begun early, continued steadily and coached intelligently, is held by all oarsmen to be the necessary foundation for a strong and winning race. One enthusiastic American oarsman yesterday instituted a booster movement for Americans to begin training now, along with the other nationals. He pointed to the excellent condition in which the English and Scotch crews go into the spring shells, and he attributed their success on the river to their strenuous and conscientious training.

TRAINED CREWS WON

He also pointed to the performances of the American crews last May at Henli. The pair, Ericson and Schlobohm, and the four, James, Schlobohm, Edwards and Ericson had worked in a long training season before the regatta. At race time they were strong and competent. They won.

He pointed again to the performance of the American eight: James, Schlobohm, Ericson, Edwards, Core, Perry, Flint and Phillips. That American eight had been together but one week. They pulled so unevenly that the coxswain could scarcely keep the shell to the course. They lost. The winning English eight, however, had been in the water at serious training since the previous December—five months.

There are nine big boat events tentatively scheduled for the Henli program next spring, aside from the sculling championships. Leaders in American rowing circles are beginning an effort now to have a strong well-trained crew in every event. The following are the racing fixtures in which Americans will train for:

International Trial Fours.
S.V.C. Fours.
Hong Fours.
Invitation or Club Fours.
Invitation or Club Eights.
Griffin Fours.
Griffin Pairs.
Junior Pairs.
The Sculls.
Sculling Championship.

The first men out on the river this fall for England and Scotland are Ford and Evans who have been out with a four which will probably represent the Artillery in the S.V.C. race and Brown, Atkinson Goldman and Campbell who are already in training for the Machine Gun Co.

Tex Rickard Pays $1000 Fine In The Fight Films Case

New York, July 27.—Tex Rickard, boxing promoter, and Frederick C. Quimby, motion-picture exhibitor, today pleaded guilty before Federal Judge Sheppard to charges of violating the interstate commerce law through the transportation across the State line from New Jersey of the Dempsey-Carpentier fight pictures and were fined $1,000 each.

In announcing sentence, Judge Sheppard criticised the law, which he said, was enacted in 1912 to meet a peculiar situation.

"While it is probably constitutional," he said, "it looks to me like an unnecessary interference by Congress with the police regulations of the States which allow such encounters. From the caste of the audience that attended the exhibition at Jersey City it was a gathering of people of refined tastes."

The pictures were shown to wounded soldiers at a hospital on Staten Island after being brought from New Jersey.

15TH INFANTRY WINS OVER U.S. MARINE GUARD

Visitors Run Out Easy Winners By Score Of 20-4

(China Press Correspondence)

Peking, Aug. 21.—On the American Glacis diamond, yesterday afternoon, the Baseball Team of the 15th U.S. Infantry inflicted a crushing defeat on the U.S. Marine Corps by 20 runs to 4. The home team were not at their best and at no time put very much "pep" into the game. In addition to their fine display, the 15th Infantry had a more than useful "tenth player" in the Base Umpire, who gave four glaringly unfair decisions against the home team. The second game commences at 3.30 p.m. today, at the same place. The home team will probably be a good deal stronger today and give a much better exhibition. The score by innings follows:

	1	2	3	4	5	6	7	8	9	Total
15th Infantry	2	4	6	2	0	0	0	4	2	= 20
U.S. Marines	0	2	0	0	0	0	1	1	0	= 4

Carpentier Gives Dempsey Boost To Home Folks

Paris, July 23.—"Dempsey is the toughest and mightiest fighter in the world. He will be the champion for five or six years to come unless he yields to temptation and high life and gets out of condition," said Georges Carpentier on arriving at the Gare St. Lazare this noon.

Georges does not believe he could defeat Dempsey in a twenty-four-foot ring or with four-ounce gloves.

"He is too powerful," explained Georges. "When we clinched in the first round I realised the colossal strength of the champion. When I reached his jaw twice in the second round and Dempsey kept his feet I realised I could never beat him.

"I believe it will be a long time—ten years, at least—before another such fight, drawing almost 100,000 spectators, could be arranged."

The crowd broke the police barrier and streamed on to the platform to meet Georges' train. The boxer sighted his aged father and mother and leaned out of the window, shaking hands as the train came to a stop.

Harry Pilcer, Maurice, the dancer; Mlle. Mistinguette, Maurice Chevalier and other theatrical and sporting stars who were at the station carried the French champion on their shoulders until he was rescued by the police and passed through a secret doorway to a taxicab while the crowd awaited around his motor car.

SEMI-FINALS IN TENNIS LEAGUE ON TOMORROW

Clubs In Middle Of Table Expected To Change Positions

Tomorrow's sixth week, or semi-final play in the City Tennis League of the Shanghai Lawn Tennis Association offers the following program:

Recs vs Japanese.
C. C. C. vs Country Club.
Portuguese vs Cercle Sportif.

All matches will be played on the courts of the first named club.

The Cricket Club plays a bye.

The play tomorrow will indicate in great measure the outcome of the whole league tournament. The Portuguese club is quite likely to hold its first position, and the Recs, opposing the disrupted Japanese club will remain a close second, perhaps going into the final play next week opposing the leading Portuguese club in the deciding game of the whole tourney.

The more doubtful matches are those which will decide third and fourth positions in the standings. It is possible today for the C. C. C. club, which now is tied in next to last position to climb into third place today. Should the C. C. C. score a big win over the Country Club, and the Cercle Sportif suffer defeat at the hands of the Portuguese, they may at least tie for that high position.

These changes for the middle positions are the only ones likely. The Cricket Club, on its bye must fall in the standings, and the Japanese, matched with the strong Portuguese club has little chance to get higher than the last position which it now holds.

Girl Tennis Champ Tells How She Learned The Game

BY SUZANNE LENGLEN

Paris, July 1.—Lawn tennis came to me at an early age. I was staying at our country home at Compiegne when I was eleven and a half. I played with my father and friends who came to stay with us, and in three months I played in a tournament in Paris.

To become a champion lawn tennis player a girl must start young. She must start well—that is to say, with good instruction. My father give me my good instruction.

When you start badly you have to begin again. Your grip is wrong and your stance is wrong. And it is, oh, so difficult to learn again.

'PLAY AGAINST A WALL'

I think the very best practice a young girl can get is to choose a wall for her opponent. I learnt more of my back-hand play by hitting a ball against a wall than against my best opponent. A wall always returns the ball, an opponent frequently misses it.

And do not play silly little games of "pat ball." Try hard always. Still, a beginner should not try to hit the ball too hard. Hit hard when the game comes to you, and you are sure of putting the ball where you want it to go.

If the young player is not very careful of this she will always play an erratic game. If you can place the ball even when running hard you will make your opponent run, too.

And girls should learn to volley as soon as possible. They must learn to take the ball on the full, and not be afraid to go up to the net.

I think that young American players have improved a less lot in this respect since last year. They are faster going to the net. Footwork is the great thing in lawn tennis. The brain and the feet must work together.

When I miss a stroke I glance at my feet, and, if necessary, change my position. It is generally faulty footwork that makes one miss.

If you take care of your position in your early games it comes to you naturally. I find now that in all my games my feet are in the right place. I emphasise the point. Brain and feet must be "right"; feet must be as quick as brain and eye.

'WATCH YOUR OPPONENT'

A young player, too, must learn to watch her opponent. When hitting the ball you want to see where your opponent is, and then place it in as difficult a place as you can.

Watch the ball until the moment comes for the attack on it to be made. Then look at your opponent.

Tournaments are the great thing for young players. Learn to play before a crowd. I like crowds, but so many players get nervous when there is a great company of spectators. So learn when young to play before people.

When I was thirteen I won my first international tournament, and when I was fifteen, with my hair on my shoulders, and still quite a small girl, I won my first world's championship on the hard courts at St. Cloud.

I am to have a new journey this year, for soon I am going to America. Shall I like it as much as France and England, I wonder?

Extra!!! Athletics Pitcher Wins Seven Straight Games

Winning seven straight games with a pennant contender is a record of which any pitcher may be justly proud. But when a twirler pitches to seven straight victories with a tailender, that is something to shout about.

Byron Harris, the star younger box-man of the lowly Philadelphia Athletics is the pitcher who turned this trick. He is going like a prairie fire and promises to deliver a few more wins for the Athletics before his record streak is broken.

ALL-ENGLAND AMATEURS XI SCORE FIRST WIN OVER THE AUSTRALIANS BY 28 RUNS

With Heavy Batting And Good Bowling, They Win By 369 To 341

(Reuter's Service)

London, August 30.—At Eastbourne today the All-England eleven of amateurs achieved the first victory over the Australians in the present tour by a margin of 28 runs, and this after being dismissed in their first innings for 43.

The conclusion of the match was marked by scenes of the wildest enthusiasm. The spectators, to the number of 3,000, surrounded the pavilion and vociferously cheered the players. The Australian captain, W. W. Armstrong, on being called on for a speech, said he was glad to give the credit to the better side on the play. The celebrations concluded with musical honors.

When the Australians resumed their second innings this morning they had 25 runs to their credit with one wicket down. They were never comfortable against C. H. Gibson, the Cambridge University player, who bowled consistently well, and took six wickets for 64 runs. The innings closed for 167, leaving the All-England side victors, as stated.

Scores: All-England XI., 1st innings, 43; All-England XI., 2nd innings, 326; Australians XI., 1st innings, 174; Australians XI., 2nd innings, 167.

On the issue of the match between Middlesex and Surrey which concluded at Lord's today depended the county championship for the present season. The result was a win for Middlesex by six wickets, and they thus retain the championship.

The following are the results of other county championship matches:

At Brighton.—Yorkshire beat Sussex by 188 runs.

At Birmingham.—Warwickshire beat Northamptonshire by 82 runs.

At Nottingham.—Kent beat Notts by 141 runs.

At Leyton.—Lancashire lead on first innings in a drawn match versus Essex.

At Leicester—Leicestershire beat Glamorganshire by five wickets.

TRAINS HELD UP FOR TWO WEEKS DUE TO FLOOD

(Staff Correspondence)

Peking, August 24.—Flood conditions along the Tientsin-Pukow Railway are worse than hitherto reported and the washout between Pengpu and Kuchen can hardly be repaired for three or four weeks, according to a statement received here from the Postal Commissioner at Tsinanfu.

It appears that a new lake has formed as a result of the floods between Pengpu and Kuchen, and that little or nothing can be done to repair the washed out section of the Railway until this water has been drained off. The extent and depth of the lake are not exactly known, but the flooded area is said to cover several miles and to be growing.

The Postal Commissioner at Tsinanfu hopes that arrangements can be made inside of a week or two to transport letter mail across the lake in boats. It is proving difficult to obtain the necessary boats and locate suitable landing places.

Attempts were made to send mail bound for Shanghai via the Shantung Railway to Tsingtao and thence southward by steamer. These plans fell through, however, as the Japanese authorities at Tsingtao, having no statistics to enable them to determine what charges to make for such service, were forced to decline to co-operate with the Chinese in this direction. Mail from Tsinanfu and other points along the Tientsin-Pukow Railway to the North of the flooded area are, accordingly, being sent to Shanghai by way of Tientsin.

President Is Planning Horseback Riding

Washington, July 16.—President Harding is going to take up horseback riding. Already he has ordered riding breeches, boots and a crop and has picked out the horse he will ride. Although the President has not ridden for thirty years, he is said to be a good horseman. He will also have the advantage of instruction from Lieutenant Mathieson, one of his military aides. The horse selected is a big army charger, well schooled and of fine gait.

Mrs. Harding is an enthusiastic and accomplished horsewoman. Although she has not ridden for a long time, she used to be very fond of the exercise. General C. E. Sawyer, the President's personal physician, has taken up horseback riding, and it is said that his enthusiasm over it has induced him to beg Mr. Harding to try it too. George B. Christian Jr., the President's private secretary, rides often in the early mornings on one of the White House horses.

The President plays golf, often getting up early and reaching the links before 8 o'clock, as he did today. General Sawyer is insistent that Mr. Harding shall keep himself in shape through physical exercise.

PERHAPS JAPAN AWAITS BRIBE TO WITHDRAW

(Dalta News Agency)

Harbin, August 14 (by mail).—The Vladivo Nippo publishes a semi-official report to the effect that negotiations between Chita and Japan will shortly commence and that Sakhalien will be the chief matter for discussion. As soon as that question is settled the Japanese forces, it is said, will be withdrawn from Siberia and a trade agreement signed with the Far Eastern Republic.

The Osaka Mainichi reports that the preliminary negotiations in Harbin are being successfully carried on and it is expected that they will be concluded before the work of the Pacific Conference has begun.

Referring to the death of Colonel Miva, the Chief of the Military Staff, the Nichi Nichi wails that Japan is now paying for the mistakes of her military party. The militarists have sent an expedition to Siberia without having the consent of the people to it. Many lives were lost, enormous sums of money spent. The coming Pacific Conference has opened the eyes of the militarists who are now faced with the question of evacuating the troops.

The Japanese Command denies the rumor that the movement of its troops in the Shukotov-Spassk region has been undertaken against Iman and Habarovsk. The Command explains it as being aimed at cleaning up the district occupied by Japanese forces of the Hunghutzes.

PLAN BIG CONFERENCE

(Reuter's Pacific Service)

Peking, August 25.—At yesterday's meeting of the People's Association at the Central Park a resolution was passed, stating that, having in view a widespread movement to support China's delegation to the Pacific Conference, the Association was of opinion that a general conference, to be known as the People's Foreign Relations Conference, should be held at Shanghai in the near future. Telegrams advocating the organisation of such a conference have been sent by the meeting to the provinces.

Reparations Board Can't Pick Out Pigs

Paris, July 9.—"Pigs is Pigs," wrote Ellis Parker Butler. The Reparations Commission has just justified its existence by approving the dictum of the American humorist as applied to animals stolen by the German invaders from Belgian, French, Serbian, Polish and Rumanian farmers.

The Versailles Treaty provided for the return of these animals, but thousands of little difficulties arose throughout Central Europe when the allied farmers thought they recognised their pigs and cows and sheep in German farmyards they visited. Naturally the Germans protested, refusing to give up a pig, for instance, because it had three kinks in its tail instead of two, or happened to be marked by nature with the same number of spots as the stolen animals.

Hereafter, under the high authority of the Reparations Commission, there will not be any attempt to identify the animals, but the Government will be expected to provide a pig for every porker missing, regardless of the spots or tails or other physical peculiarities.

Further Conditions For Motor Licenses Issued By Council

Additional motor vehicles license conditions, having to do with the identification feature of cars, are announced by the Council to go into effect from today.

The new conditions stipulate:

1.—That all motor vehicles, except trade motor cars and freight trailers, shall display a number plate of regulation pattern in a conspicuous position at the front and back of the vehicle.

2.—That freight vehicles of and exceeding a gross weight of 8,000 pounds shall be denoted as "heavy freight vehicles" and shall carry as a distinguishing mark a red disc, 6 inches in diameter, affixed to the front of the car, and small red disc, 3 inches in diameter, painted on the front glass of the headlights. Heavy freight vehicles are not permitted to make use of bridges closed to heavy vehicular traffic.

3.—That the lighted lamp in front of motor bicycles illuminate the number plate, while the tail lamp need not do so.

(Reuter's Pacific Service)

Russians Chained In Batches Work For The Japanese

(Dalta News Agency)

Chita, August 12 (by mail).—It is reported that the Japanese occupation forces on the Russian half of the Sakhalien Island are barbarously treating the Russian prisoners. They chain as many as twelve men together and force them to work.

All Russian business has stopped at Aleksandrovsk as a result of Japanese insolence. The Russians who are still at liberty are forbidden to speak on political matters by order of General Kodzime. Those who disobey this order are being court-martialed.

The above-mentioned Mishima Maru sailed from Shanghai on August 15 and arrived at Penang on the 27th.

Form Syndicate Of Japanese To Grab Fisheries

(Dalta News Agency)

Harbin, August 14.—Reports coming from Kamchatka are very distressing. The Japanese consider themselves the masters of the situation and are entirely ignoring the Russian authorities. They have seized the Russian fisheries along the shores of Kamchatka and the Okhotsk sea.

The coastwise navigation which has by former treaties been entrusted to Russian vessels is now entirely in the hands of the Japanese. A special Japanese syndicate has been organised for the purpose of taking over the Russian fisheries.

Stubborn Case of Boils & Pimples
"Can honestly say I am quite cured"

Our portrait is of Mr. W. BRIDAL, 27, Strand, Ynysybwl, Mountain Ash, South Wales, Great Britain, who writes:
"It gives me great pleasure in telling you about the remarkable cure I found in Clarke's Blood Mixture for boils and pimples. After having suffered from time to time from both, and trying all kinds of so-called remedies, and being under doctor's treatment, I thought of Clarke's Blood Mixture, having tried it years ago with success for a similar complaint. After taking one bottle it seemed to drive them out, and after the second bottle I found a decided improvement, and continuing with your Mixture I can honestly say I am quite cured."
CLARKE'S BLOOD MIXTURE, by reason of its remarkable blood purifying properties, can be relied upon to give speedy relief and lasting benefit in cases of Eczema, Bad Legs, Abscesses, Ulcers, Boils, Pimples, Eruptions, Piles, Glandular Swellings, Rheumatism, Sciatica, Gout. Just act as if you had not been given an increase and save it. In a few years you should have a nice sum for the proverbial "rainy day".

Our stocks of silver are reported as follows:

Sycee and Bar Silver Tls. 27,056,000, a decline of Tls. 1,200,000.

Chinese and Mexican Dollars $24,660,000, a decline of $490,000.

Estimated value in Tls. 44,800,000, as against Tls. 50,277,000 held at this time last year.

Offered: 925,294 lbs. (about 413 tons).

Sold: 697,147 lbs. (about 311 tons).

During the past week the London market has been practically unchanged. Towards the day of auction, however, cables were received advising a decline had taken place.

The demand at the auction was fairly good, but prices realised show an all-round decline on the week. Only a small quantity of Rubber was catalogued, viz. 488 tons; of this 413 tons were offered and 311 sold.

Awarded Standard Sheet sold at 27 cents which marks 1 cent down.

Sheet equal to Standard was wanted at 1 to 1 1/2 cents below last week.

Off Quality Sheet fetched fairly good prices.

Only one lot Awarded Standard First Latex was sold, the price being 28 1/2 cents.

Buyers thereafter bid only 28 cents, at which price, however, sellers withdrew their lots.

Crepe equal to Standard and Off Color Latex fetched comparatively good prices.

Brown, Dark and Barky Crepes found ready buyers at prices slightly below last week's.

The auction finished already about 12:30 p.m.

N. B.—The above prices for Standard Quality Sheet and Crepe are only paid for small lots at the auctions, whereas bigger quantities in the outside market generally fetch from 1 cent to 1 1/2 above these figures.

MARCH OF EVENTS

BY BRUCE HOPPER

SELF-DETERMINATION, the quick-acting essence of President Wilson's political alchemy, continues to crystallise the dreams of small races for expanding sovereignty, and to paint the map of Europe in the multiple tints and complex configurations of a crazy quilt.

To satisfy the demands of newly-born republics corridors have been made to the sea, barriers and counter-barriers erected to appease the irritation of the infant states, and great cities have been internationalised when the claims of opposing nationals seemed irreconcilable. And the end of the disintegration is not yet in sight, even though the reduction of Europe to its elements threatens continental bankruptcy.

* * *

THREE major disputes are before the League of Nations now in session. The most urgent is the divisibility of the industrial region in Upper Silesia, for which Poland and Germany enter claims and counter-claims which seem incontestable. Britain and France have taken sides in the matter, and Czecho-Slovakia expects to get one of the bones whichever way the balance falls, in the way of additional territory. Poland is also contesting with Lithuania for a strip of the Vilna district, and Austria is occupying by right of eminent domain a portion of western Hungary, which was awarded her in the Peace Treaty. In all these territorial disputes there has been resort to pitched battle, with a resulting loss of life, and intensified racial feelings.

History has been enacted in waves of consolidation followed by disintegration, and back to consolidation again. Ancient Greece, the home of the most beautifully ideal culture the world has ever known, met its doom because of the bickering jealousies of its minor states. Alexander built an empire which only fell into decay and division into four kingdoms upon his death. Rome was the next consolidating power, but Rome was conquered by the Teuton idea of small states. Charlemagne welded the units into a single empire again, which his sons lived to crumble. Throughout the middle ages the fight between king and baron continued, a struggle between concentration and dispersion of power. The king finally won, and Louis XIV was not far from the truth when he said: "I am the State."

* * *

HOW long the present tendency to disintegration in Europe will last cannot be foretold, even in the light of what has gone before. Never was there such a colossal breakdown. The modern international temperament is seeking a satisfactory cohesion that will guarantee harmony and peace, and yet not infringe upon the rights of the small races which have been released from bondage by the great war. The League of Nations was called into being to enforce that ideal, and it acts now as a brake to prevent the pendulum from swinging to the extreme of disintegration which is destruction of all existing institutions.

But consolidation ever lurks in the offing as a refuge for these baby states which have not learned to walk alone. Many of them are already bankrupt, and see no salvation save in amalgamation with stronger neighbors. Austria and Germany have petitioned for the right to join hands, but the Allies fear a great German-speaking empire. Austria now consists of a small mountainous region, and most of her people are concentrated in cities, with the result that she faces absolute extinction unless she is rescued by the powers. Other states born of the war are in similar straits, notably the curious republics on the Baltic. All of which seems to indicate that the self-determination idea, though human and kind, is for the moment impracticable.

* * *

STUDENTS of the future will find the period in which we live the most fascinating of all history. The world was never turned so completely upside down. Men were never so assiduous in their groping for the ideal state. Experiments are under way, such as communism in Russia, and international concert as represented by the League of Nations; international courts of justice are being established, and many innovations which would have startled the most radical reformers of fifty years ago. Improved communication brings nations into daily touch with each other, so that world reform in politics is possible. And the sincere efforts of the great powers to confer upon the limitation of armaments is but the cry of many peoples against the horrors of armed conflict, and indicates their disbelief in the theory of the biological necessity of war.

It may be the world is about to enter upon the joys of ideal states, as pictured by the painters of imaginary commonwealths. Human desire has ever been for higher and better government, depicted in Plato's Atlantis, More's Utopia, Campanella's City of the Sun, and other political dreams. By logical sequence the cataclysm of the world war should be followed by some measure of Utopia.

The Rhyming Optimist

BY ALINE MICHAELIS

Forget it

They tell us that business is dull as can be because of the post-war depression; we have heard all about it from A down to Z, for with some folks the theme's an obsession. They say not a merchant knows which way to jump to get out of the crash that's impending. They say things will likely continue to slump and there's mighty small chance of times mending. Of course, this prediction is apt to come true, if the people just stand by and let it; but the best thing for every real fellow to do is to get down to work and—forget it! Some people can figure out problems abstruse, all dealing with things economic; but we laugh at their statements and say: "What's the use?" for their dismal results are most comic. They can lead the unthinking to dolor and tears by weight of statistics they thunder, for they say it will be about forty-three years before we can get out from under. Say, brother, don't heed them, but pass such talk by; go after some good job and get it; chase the sob from your throat and the tear from your eye, and as for depression—forget it! There's a remedy good for such numerous needs that it seems everybody should try it; get to work, sawing wood, feeding pigs, mowing weeds and as for depression—keep quiet! Raise a couple of onions where one grew before and keep all your dollars in motion till you shoo old Depression away from your door and end all this gloomy commotion. We have all heard enough of this gospel of woes, it is time we turned in and upset it; it is only by labor prosperity grows, and don't ever try to forget it!

How To Sleep Soundly

BY BRICE BELDEN, M. D.

Sleep is seldom a problem for those who have kept themselves in good condition through rational living. It is generally toxins circulating in the blood that account for insomnia or disturbed sleep, poisons that are in excess, because of improper diet, or insufficient exercise, or some other violation of the laws of health.

Then we must not overlook the poisons which are introduced from without, and are not chargeable to bodily troubles, namely, tea, coffee and tobacco, when used to excess—not to speak of alcohol.

Worry is a common cause of insomnia, because it makes for nervous intensity, instead of relaxation. It is a form of fear, and may take the shape noted in those who dread that are not going to sleep when they retire.

These sufferers are especially apt to resort to drugs. If they could be made to understand that their condition is due to a chronic toxic condition, and that adding drugs only increases their toxicity, their recovery would be expedited.

Those people need to be told how to live, in other words how to get rid of their toxemia, and their recovery will be automatic.

A man who has been very strong in his youth, and who, as a young man has worked or exercised very hard physically, need not wonder, upon reaching the age of fifty, and achieving business success and leisure, that he finds himself suffering from insomnia. All he needs to do is to give up his leisure and use his muscles in a rational way—not wholly in signing contracts and checks, but also in golf, or the exercise known as the Spread Eagle, or in any way that will bring his once powerful muscular equipment into action.

"There is truly no more universal wooer of sleep than honest physical weariness."

Tested Recipes

(This recipe employing milk has been tested by the New York State College of Agriculture at Cornell University.)

SCALLOPED CARROTS WITH CHEESE

One cup milk, 1 tablespoon flour, 1 tablespoon butter, ¼ to ½ cup grated cheese, 2 cups cooked sliced carrots, salt, paprika, parsley or 2 tablespoons minced green pepper.

Make a cheese sauce by melting butter over hot water and adding the flour. When they are well blended add the scalded milk and seasonings. Stir the mixture constantly until it thickens. Add the grated cheese and let the sauce stand over hot water until the cheese is melted and the sauce thoroughly cooked.

Arrange the sauce and the sliced carrots in alternate layers in a greased baking dish. Sprinkle buttered crumbs over the top and brown the dish in a moderate oven for twenty-five to thirty minutes.

Cheese sauce may be used with various meat substitute loaves and croquettes as well as in scalloped dishes.

England Sport Mad, Says Sir Sidney Low

England is in the midst of a grand national festival of sport. Never have so many people talked and thought about sports. The land is sport-mad.

The country is slipping along the down-grade towards insolvency, as any country must be which spends more than it earns. Our coal export trade, the foundation of all our commercial greatness, is dead: our shipping, iron, cotton, machinery are very badly hit: four millions of workers are idle.

REFUSE TO BE WORRIED

All this is rather depressing. But we decline to be depressed. Having no particular solution to offer for our tangled problems, we just refuse to think about them. Let us watch the Australians. Let us consider whether we have, after all, secured the best possible English eleven. Let us read about the American polo team, and of the lady champions of the golf course. Let us play tennis on these Summer evenings, and forget everything in the effort to deliver mighty drives and smashing volleys.

We are enjoying this carnival. Not only do we like the games, but we are pleasantly conscious of our own attitude toward them. We have the feeling, and we are rather frequently reminded of it in print, that this is the way in which a high-spirited nation ought to behave. Foreigners may be downcast and gloomy. That is not the "Anglo-Saxon" manner. We know we are going to "muddle through" our economic and other troubles somehow. Meanwhile, what is the use of croaking?

'WE CAN KEEP OUR TEMPER'

Let us throw ourselves wholeheartedly into the sporting and athletic contests. That will make us feel jolly, and prevent us from losing our heads, or our nerves, or our self-confidence. Didn't Drake finish his match at bowls on Plymouth Hoe before he went out to beat the Spanish Armada? Buck up; keep smiling; don't worry; take things easy; and get all the amusement we innocently can.

There is something in this point of view. In fact, there is a good deal in it. It is an instinctive recognition of the greatest of all British national assets, which is the character of the nation.

The British are not cleverer than other peoples, and not so clever as some; I do not know that we can properly claim to be braver, more talented, or more virtuous. But we do possess some useful qualities. We can keep our temper; we are not easily rattled; we do not fly to violent extremes; we have a balanced, moderate, good-humored outlook on life.

Only—it is not quite enough in this ravelled and ravished world. Sport and the sporting spirit are excellent. But, alone or in combination, they will not pull us through. Some other qualities are needed, drab, prosaic, uninteresting qualities: that is to say, Economy, Industry, Foresight.

Dull words and dull things; nothing at all shining or romantic about them. But they happen to be indispensable.

MUST GO TO WORK

We are islanders, and the British isles are not large enough, nor rich enough, to feed and cloth forty-eight, millions of human beings. We can live only by buying what we need in return for what others will buy from us. We have given them coal and manufactured goods and sea-transport, and taken in exchange raw materials and food.

That process depends on cheap production, efficient labor and abundant credit and capital. At present it has almost ceased, because all the three conditions are wanting.

England is not selling cheaply, it is not producing efficiently, and its capital and credit are wasting away. Credit and capital are built on saving out of surplus income. England cannot save because its surplus income, and more than the surplus, are squeezed out of the people by the State.

Taxes and rates are so heavy that they are largely paid out of capital. Eight billion dollars are drawn annually by the Central Government from a community which is actually poorer than it was when the national expenditure was less by seven-eighths.

WILL SHATTER CREDIT

The immense budgets are diminishing our capital, and presently they will shatter our credit.

On the top of this we have the grim knowledge that we are not selling at a price which tempts our customers to buy. No foreigner will take British coal again until it can be produced cheaply.

The United States is filling the bunkers and cellars in the Argentine, Brazil, Spain, Italy. American coal and German is being unloaded in British ports to be burned in British grates and furnaces. Coals are being carried to Newcastle. How shall we endure if that goes on?

British labor has ceased to be cheap, and it is comparatively inefficient. The British miner produces under 200 tons per annum; the American 800 tons. Or turn to our old enemy. I read that the Factory Inspectorate of Wurtemberg has been complaining that the local workingmen are in revolt against the compulsory eight-hour day. They refuse to work for so short a time; they "demand longer hours," insist on working nine, ten hours daily. And many of the British trades have their seven-hour day, and will presently be striking for a thirty-six hour week!

It is not the deprecated mark only that explains the rise in German exports. No currency manipulation will enable the six-hour-a-day business to hold its own with the nine-hour concern.

Britons must remember that man does not live by sport alone and that the gamesome land has drifted into a situation from which it cannot be extricated except by Thrift and Work.

Stories Of The Famous

The celebration of the centenary of the birth of Flaubert, the great French writer, author of "Madame Bovary" and "Salammbo," will take place on December 12 next.

Anatole France tells an amusing story of Flaubert.

A beautiful young actress set her heart upon winning the poetry prize from the Acadamie Francaise, but on one occasion she forgot to compose her poem until the day upon which it was due.

In despair she appealed to Flaubert to write two hundred lines on "Immortality" before midnight, and she locked him in her library to complete the task.

At 11.30 he had not written a line; then, bestirring himself, he took down Lamartine's "Harmonies" from a shelf and copied out the necessary number of verses.

Unaware of their true authorship, the lines were submitted by the actress to the Academie, which awarded her the prize and printed Lamartine's verses over the signature of Louise Collet!

It was a capital joke against the "Immortals," but Flaubert never confessed his part in it until long afterwards.

Vocations For Girls

BY DR. Wm. A. McKEEVER
(Professor in the University of Kansas and a Writer on Sociological Subjects.)

The girls are not getting a square deal in respect to their guidance for a life work. The millions of dollars now being spent by the nation, the States and the communities for such training is going very largely to the assistance of boys.

There are just as many girls as boys in America, and the same number of young women as young men. But, sad to say, there is a false assumption that girls are not as a rule to enter a vocation. They are just girls, who are to be listed as "at home" in case they do not drift into some kind of employment. Or, perhaps they will get married.

And here comes the grossest false assumption within the whole series of false conceptions, about girls. It is the idea that the married life of woman is not a vocation, that she needs no vocational training either before or after marriage.

It is true that our best standard high schools are now all teaching so-called domestic science and art, a course confined chiefly to cooking and sewing. But the management of the house, the management of a husband, the management of children, the co-operation between the business of the wife and that of the husband, the relation of the family to other families and to other major institutions—as the church, the school, the community—these are momentous considerations for girlhood and womanhood in the making

Fifty-one percent of our college girls marry. Careful and reliable inquiries have shown that over ninety percent of college girls give marriage as their decided preference for a life work. The clear inference here is that 40 percent of our college girls are failures. Sooner of later they have bitter knowledge of the fact that they are failures.

But the entire responsibility for the high percentage of failures among our girls of today to find a life that satisfies, falls back upon the neglect of vocational guidance. "Men only" is the sign we have stuck up everywhere in the matter of vocational training. What the girls of America, therefore, need and must have before it may be said that they are getting a square deal is something like the following:

Less technical and mechanical book instruction and more of trying and testing of the major occupations available for the women of today. The typical high school girl graduate is an ignorant and helpless creature in respect to the busy affairs of common womanhood. One-third of the course to this point should be light industrial practise for all girls—rich and poor alike.

All-round treatment in school, in college and outside, as if she were a full 100 percent human being, and not a thing to be used if wanted or pushed aside if she gets in the way of man's business.

This human treatment would mean that marriage and home making are as strictly vocational as farming and merchandising.

It would mean a course of training from the kindergarten age to full maturity, conducted with the full assumption that the girl is to have a vocation the same as the boy, and must have one in order to be happy and helpful to the world.

TEXACO MOTOR OILS

—SAVE POWER, THE ENGINE, EXPENSE

There are four grades of Texaco Motor Oil; light, medium, heavy and extra heavy—a grade to suit your every requirement, no matter what kind of car you drive.

Texaco Motor Oil assures maximum power because it holds the "seal" between piston rings and cylinder walls. That is where fuel leakage occurs when the lubricant does not possess body to function properly.

Texaco Motor Oils are composed of the best American Crudes, refined according to most scientific methods, and each tin is tested before it leaves the refinery. Use of it affords free lubrication to all moving parts of the motor, more power, high compression, and less carbon. The little carbon which does remain is never hard and flinty, but soft and fluffy like soot.

Texaco Motor Oil is a quality product, each drop is the same—maximum lubrication value, minimum waste.
